- Maintenance of plant and machines
- Plant Emergencies
- Unexpected leakages, spills
- Accidental release of toxic gases
- Biohazard response
- Unexpected leakages spills or other releases
- Tank Cleaning
- CBRN Emergencies
- Chemical leaks
- Emergency Response
- Hazmat response

PRODUCT INFORMATION

Product Material	Strong and flexible polyester fabric, coated with PVC on both sides.
Design Features	• Encapsulating design type CV (with visor and hump, BA worn inside the suit) • Encapsulating design type VP1 (larger visor, with hump, BA worn inside the suit) • Non-encapsulating design type T (with face seal and without hump, BA worn outside the suit)
Seam Type	Welded Seams
Standards Overview	Non-certified product. For training purpose only.
Product Reference	TRAINER
Weight	• Approx. 5.0 kg/11 lbs for a type CV/VP1 suit size L with sewn-in socks. • Approx. 4.5 kg/10 lbs for a type T suit size L with sewn-in socks. • Attached boots add approx. 2 kg/4.5 lbs.
Zipper	Strong and durable watertight PVC coated zipper. The zipper is closing downwards, and is protected by a splash guard/flap.
Footwear And Attachments	Sewn-in sock/booties made of the suit material. Alternatively PVC safety boots. The boots are fixed with an ergonomically designed ring attachment, for simplified boot exchange.
Included With Each Delivery	• 1 pair of cotton comfort inner gloves • 2 pcs extra locking pins for the Bayonet glove ring system • 1 pce Molycote lubrication for the O-rings in the Bayonet glove ring system • 1 pce grease stick for lubrication of the zipper • 1 pair of comfort silicone oversocks (only for suits with sewn-in socks) • 1 pce coat hanger
Visor And Face Seal	• Encapsulating suits are fitted with a rigid 2 mm impact resistant PVC visor • Optionally 1 mm soft PVC visor • The visor comes in two optional sizes; CV or the larger VP1 • Non-encapsulating suits are fitted with an anatomically designed face seal
Ventilation	• A ventilation system is included as standard. For the safety of the wearer, it provides a constant level of overpressure inside the suit • The Regulating valve has 3 ventilation rates (2, 30 and 100 l/min) plus zero/off position and is also available in a passthrough version (encapsulating suits only), for use with external air supply • Encapsulating suits (type CV/VP1) have two overpressure valves in the back of the hood • Non-encapsulating suits (type T) have one overpressure valve on the chest
Footwear And Attachments	Sewn-in sock/booties made of the suit material. Alternatively PVC safety boots. The boots are fixed with an ergonomically designed ring attachment, for simplified boot exchange.
Optional Features And Accessories	• Combined Regulating valve & Airline passthrough MkII (encapsulating suits only) • Anti-fog lens (encapsulating suits only) • Hands-free visor light system (encapsulating suits only) • Manometer holder (encapsulating suits only) • Inside pockets & loops for radio, PPT etc. (encapsulating suits only) • Internal waist belt & leg shortener for size adjustment • D-ring for holding small measuring instruments & tools • Customised marking, e.g. digits, letters, logos • AlphaTec® #58-800 Overglove for improved cut & puncture resistance • AlphaTec® storage bag • Other accessories are available upon request
